* Column (3) yield p	er acre = column (2) number of bales ha	arvested divided by	column (1) field size		8/27/2007
Owner/Manager Agreement: I verify that all of the above information is correct. I understand that it is my responsibility to maintain						
compliance with the conservation provisions of applicable programs such as the Farm Bill, EQIP and the NC Agriculture Cost-Share Program.						
(Note - Compliance may include maintaining a minimum percentage of crop residue unless wavered through special provisions of federal						
and/or state emergency drought declarations.) I also understand that harvesting of corn stover may impact soil fertility. With properly						
documented corn stover yield information, I <i>may</i> be eligible to increase the plant available nitrogen applied to the subsequent winter small						
grain crop. I will contact my technical specialist for eligibility requirements and additional information.						
	indocting technical s	pecialist for eligibility	y requirements and		11.	
Owner/Manager Signature: Date:						
Technical Specialist/Government Agency Rep Agreement: I verify that all of the above crop yield information for corn stover is correct and						
accurate.		, , ., .	, , , , , , , , , , , , , , , , , , ,
